Diarrhoea and vomiting in children

There's no specific cure for stomach bugs such as **Norovirus**

Keep kids home from school for

after symptoms have passed.
This is enough time to let the
virus run its course

If your child already has a serious
illness, or symptoms last longer
than a few days, contact your GP
to seek advice

Visit [nhs.uk/norovirus](https://www.nhs.uk/norovirus) for more

NHS choices

25

different
strains of
norovirus
are known to
affect humans.

They're the most common cause
of stomach bugs in the UK

Home Treatment

Liquid paracetamol is
useful for fever or
aches and pains

Give kids plenty of
water to stay hydrated
and replace lost fluids

If your child feels like
eating, give them foods
that are easy to digest
